Insurance Requirements:

Before the release of equipment, Videofax must have on file a Certificate of insurance naming Videofax as “Loss Payee” with regard to either miscellaneous rented equipment or some similar language that covers property damage.

Coverage under that section of the policy should be in an amount that meets or exceeds the value of the equipment being rented and that covers the time period from pick-up to return of the equipment.

Should there be any loss or damage, the producer or production company of record is responsible for any deductible amounts.

At the discretion of Videofax, a producer may be extended the option of paying a security fee and being placed under the Videofax insurance policy. In that case, the deductible amount of the policy will be held under on a credit card until the equipment is returned and checked in.
